

Company profile

Shinyhandles was established in 2008, Jinhua, Zhejiang, China. We took the initiative in "sincerity", "integrity" and "value creating" as our culture, devoted to "making the shiny home", gradually developed into a company which is producing and exporting for all kinds of decorative handles. The producing area is 3,000 m² and the office area is 500 m². Undoubtedly, we are proud of our employees' performance, they are well cooperating with each other in producing, testing, packaging also in the field of trade and sales.

We are among the best of the decorative handles industry with SGS certification, and our products are divided into five categories and more than 20 sub-categories, with different kinds of materials, up to thousands of models

Choose us:

Professional - nearly 10 years we have been focused on the production processing

Responsible- with high standard quality control and high production capacity for completing orders

Efficient - clear team division, able to solve the problems quickly

Innovation - constantly looking for new inspirations of new products, always following the fashion

Flexible - accepting the customization of the products, even with small amount

We offer the best service with the reasonable price, we Shiny handles look forward to your contact!
